# CONTENTS

Preface	vii	<b>4 Field studies</b>	<b>105</b>
Editors' acknowledgements	ix	4.1 Human impact on land degradation in the Inner Alentejo, Mértola, Portugal	106
Authors' acknowledgements	xi	4.2 Rambla Honda, Tabernas, Almería, Spain	110
Notes on the contributors	xiii	4.3 El Ardal, Murcia, Spain	114
<b>1 Introduction</b>	<b>1</b>	4.4 Santa Lucia field site, Sardinia, Italy	116
1.1 Mediterranean desertification	2	4.5 Astimini-Fiume Santo, Sardinia, Italy	120
1.2 The European Commission programmes and projects on desertification	6	4.6 The case studies at the Petralona and Hortiatis field sites, northern Greece	124
1.3 The MEDALUS Project	8	4.7 Land-use change and soil properties affecting desertification at the Spata field site, Athens, Greece	126
1.4 Examples from other European Commission projects	12		
<b>2 Semi-natural environments and processes</b>	<b>29</b>	<b>5 Regional studies</b>	<b>129</b>
2.1 Modelling change	30	5.1 The Guadalentín Basin, Murcia, Spain	130
2.2 Monitoring change by remote sensing	32	5.2 The Agri Basin, Basilicata, Italy	144
2.3 Climate change	34	5.3 The Abruzzo region (Italy). Investigation of desertification-threatened areas	152
2.4 Estimating future climates in the Mediterranean	38		
2.5 Aspects of the ecology of the shrub-winter annual communities of the Mediterranean Basin	44	<b>6 Results and prospects</b>	<b>161</b>
2.6 Mediterranean soils and desertification	48	Results and prospects	162
2.7 Runoff and erosion	56		
2.8 Modelling the physical and biological systems	60		
<b>3 Socio-economic processes and change</b>	<b>71</b>	Glossary	165
3.1 Landscape sustainability	72	References	171
3.2 History of Mediterranean land use	76	MEDALUS publications	179
3.3 Population dynamics and change	80	Plant species glossary	193
3.4 Agricultural transformations	82	Index of contributors	197
3.5 Agriculture	86	Subject index	199
3.6 Urban expansion and littoralisation	92		
3.7 The increasing demand for water	98		
3.8 Floods and river valley management	102
