Foreword		xxii
Preface		xxv
PART I	INTRODUCTION	1
1 Green Nichol	a Toxicology las D. Anastas	3
1.1	Introduction	3
1.2	History and Scope of Toxicology	4
	1.2.1 The need for green toxicology	5
1.3	Principles of Toxicology	5
	1.3.1 Characteristics of exposure	6
	1.3.2 Spectrum of toxic effects	6
	1.3.3 The dose–response relationship	7
1.4	Disposition of Toxicants in Organisms	8
	1.4.1 Absorption	9
	1.4.2 Distribution	11
	1.4.3 Metabolism	11
	1.4.4 Excretion	12
1.5	Non-Organ System Toxicity	12
	1.5.1 Carcinogenesis	13
	1.5.2 Reproductive and developmental toxicity	13
	1.5.3 Immunotoxicology	14
1.6	Mechanistic Toxicology	15
1.7	Quantitative Structure–Activity Relationships	16
1.8	Environmental Toxicology	18
	1.8.1 Persistence and bioaccumulation	18
1.9	Risk Assessment	19
	1.9.1 Non-Cancer risk assessment	20
	1.9.2 Cancer risk assessment	21
1.10	Conclusions	21
