

How Euler Did It

C. Edward Sandifer
Western Connecticut State University

Published and Distributed by
The Mathematical Association of America

Contents

Introduction	ix
1 Euler's Greatest Hits	1
Part I: Geometry	7
2 V , E and F , Part 1 (June 2004)	9
3 V , E and F , Part 2 (July 2004)	13
4 19th Century Triangle Geometry (May 2006)	19
5 Beyond Isosceles Triangles (April 2004)	29
6 The Euler–Pythagoras Theorem (January 2005)	33
7 Cramer's Paradox (August 2004)	37
Part II: Number Theory	43
8 Fermat's Little Theorem (November 2003)	45
9 Amicable Numbers (November 2005)	49
10 Odd Perfect Numbers (November 2006)	57
11 Euler and Pell (April 2005)	63
12 Factors of Forms (December 2005)	67
13 $2aa + bb$ (January 2006)	75
Part III: Combinatorics	83
14 Philip Naudé's Problem (October 2005)	85
15 Venn Diagrams (January 2004)	91
16 Knight's Tour (April 2006)	95
17 Derangements (September 2004)	103
18 Orthogonal Matrices (August 2006)	109

Part IV: Analysis	113
19 Piecewise Functions (January 2007)	115
20 Finding Logarithms by Hand (July 2005).....	121
21 Roots by Recursion (June 2005).....	127
22 Theorema Arithmeticum (March 2005).....	133
23 A Mystery about the Law of Cosines (December 2004)	139
24 A Memorable Example of False Induction (August 2005).....	143
25 Foundations of Calculus (September 2006)	147
26 Wallis's Formula (November 2004)	153
27 Arc Length of an Ellipse (October 2004).....	157
28 Mixed Partial Derivatives (May 2004)	163
29 Goldbach's Series (February 2005)	167
30 Bernoulli Numbers (September 2005).....	171
31 Divergent Series (June 2006).....	177
32 Who Proved e is Irrational? (February 2006)	185
33 Infinitely Many Primes (March 2006).....	191
34 Formal Sums and Products (July 2006).....	197
35 Estimating the Basel Problem (December, 2003).....	205
36 Basel Problem with Integrals (March 2004).....	209
37 Cannonball Curves (December 2006)	213
38 Propulsion of Ships (February 2004).....	219
39 How Euler Discovered America (October 2006).....	223
40 The Euler Society (May 2005)	227
