# Contents

	List of Contributors	v
	Preface	ix
1	Quorum Sensing and Social Interactions in Microbial Biofilms Robert J. Goldstone, Roman Popat, Matthew P. Fletcher, Shanika A. Cruz and Stephen P. Diggle	1
2	Biofilms in Disease James D. Bryers	25
3	The Ecological Significance of Plant-associated Biofilms Venkatachalam Lakshmanan, Amutha Sampath Kumar and Harsh P. Bais	43
4	An Invisible Workforce: Biofilms in the Soil Mette Burmølle, Annelise Kjølner and Søren J. Sørensen	61
5	Biofilms: Applications in Bioremediation Gabriele Pastorella, Giulio Gazzola, Seratna Guadarrama and Enrico Marsili	73
6	Biofilms in Wastewater Treatment Systems G.A. Clark Ehlers and Susan J. Turner	99
7	Corrosion and Fouling Steve Flint and Gideon Wolfaardt	111
8	Biofilms in Freshwater: Their Importance for the Maintenance and Monitoring of Freshwater Health Gavin Lear, Andrew Dopheide, Pierre-Yves Ancion, Kelly Roberts, Vidya Washington, Jo Smith and Gillian D. Lewis	129
9	Extracellular Enzymes in Aquatic Biofilms: Microbial Interactions versus Water Quality Effects in the Use of Organic Matter Anna M. Romani, Joan Artigas and Irene Ylla	153

10	Energy from Slime? Power from Microbial Fuel Cells Koichi Nishio, Atsushi Kouzuma, Souichiro Kato and Kazuya Watanabe	175
11	Catalytic Biofilms: A Powerful Concept for Future Bioprocesses Rainer Gross, Andreas Schmid and Katja Buehler	193
	Index	223
