 - 5.3 Playfair's table of British–West Indies trade, 1786 / 78
 - 5.4 Title page of Mathew Carey's *A Short Account of the Malignant Fever*, 1793 / 79

- 5.5 Burial records from Philadelphia / 81
- 5.6 Valentine Seaman's map of yellow fever, New York / 83
- 5.7 Valentine Seaman's map of odiferous sites, New York, 1798 / 85
- 5.8 Pascalis's map of yellow fever, New York, 1819 / 88
- 6.1 Jameson's index map of cholera in India, 1819 / 97
- 6.2A-B Briere de Boismont's map of cholera in Poland, 1831 / 99-100
- 6.3A-B Hamett's map of cholera in Dantzick, ca. 1831 / 102
- 6.4A-B *Lancet* map of cholera diffusion, 1831 / 105, 107
- 6.5 Schnurrer's world map of cholera, 1831 / 109
- 6.6A-B Christie's map of cholera, 1817-1830 / 111
- 6.7A-B Corbyn's map of cholera in India, 1832 / 113
- 6.8A-B Brigham's world map of cholera, 1832 / 114-115
 - 7.1 British postal reform map, 1838 / 121
 - 7.2 Postal reform map, London area / 122
 - 7.3 London boroughs, 1832 / 124
 - 7.4 London registration districts, 1851 / 125
 - 7.5 Reese's map of cholera in New York, 1832 / 126
 - 7.6 Sources of cholera in New York / 128
- 7.7A-B Cholera in Rouen, France, 1833 / 129-130
 - 7.8 Grainger's map of cholera in Hamburg, 1832 / 131
- 7.9A-B Chadwick's map of poverty and disease in Leeds, 1844 / 132-133
 - 7.10 Grainger's map of cholera in metropolitan London, 1849 / 134
 - 7.11A Petermann's cholera maps, England, 1848 / 137
- 7.11B-C Petermann's cholera map of London / 138-139
 - 7.12 John Lea's map of cholera on a street in Cincinnati, 1848 / 140
- 8.1 London Sewer Commission grid map, 1850 / 145
- 8.2A-B Wyld's London Sewer Commission map, 1850 / 146
 - 8.3 Portrait of John Snow / 148
- 8.4A-B Schematic of cholera at Albion Terrace, 1849 / 150
 - 8.5 Shapter's epidemic curve of cholera in Exeter / 156
- 8.6A-B Shapter's map of 1830s cholera in Exeter, 1849 / 157, 159
 - 8.7 Portrait of William Farr / 162
 - 9.1 Portrait of John Sutherland / 165
 - 9.2 Title page of William Farr's cholera study, 1852 / 166
 - 9.3 Farr's chart of cholera, diarrhea, and climate / 168
 - 9.4 Farr's map of cholera in England, 1849 / 170
 - 9.5 Farr's coxcomb of mortality and temperature / 171
- 9.6A-B Metropolitan London "table-map" of cholera variables / 173, 175
- 9.7A-B Farr's "map-diagram" of cholera and altitude / 177-178
 - 9.8 The inverse relationship between altitude and mortality / 179
- 9.9A-C Snow's map of South London water company catchments, 1855 / 183-184
 - 9.10 Snow's summary calculations / 186
 - 9.11 Portrait of John Simon / 187

- 9.12 Simon's coarse findings / 189
- 9.13 Graph of Simon's fine-grained findings / 189
- 9.14 Snow's analysis of Simon's data, 1856 / 191
- 10.1A-B St. James Parish, 1720 / 194
 - 10.2 Whitehead's first cholera map, 1854 / 196
 - 10.3 Map of St. Luke Parish boundaries and cholera activity, 1854 / 198
 - 10.4 John Snow's map of cholera in St. James and vicinity, 1855 / 201
 - 10.5 Snow's polygon centered on the Broad St. Pump / 202
 - 10.6 Cooper's cholera map / 205
- 10.7A-B Whitehead's second map of cholera, 1855 / 206, 208
 - 10.8 Cholera in Columbia, Pennsylvania / 212
 - 10.9 Acland's map of cholera in Oxford / 213
- 10.10 Portrait of Reverend Henry Whitehead / 215
 - 11.1 Sedgwick's map of Broad Street cholera, 1901 / 217
 - 11.2 Frost's graph of typhoid fever incidence, 1910 / 219
 - 11.3 Frost's map of typhoid fever in Williamson, West Virginia / 220
 - 11.4 Hamilton's map of typhoid fever in Chicago, 1903 / 222
 - 11.5 Hamilton's map of typhoid fever in the Nineteenth Ward, Chicago / 223
 - 11.6 Frost's map of polio in Mason City, Iowa, 1910 / 225
 - 11.7 Frost's map of polio in school district 8, Mason City, Iowa / 226
 - 11.8 Frost's map of the spread of polio in Iowa, 1910 / 227
 - 11.9 A GIS map with original map spatially adjusted beneath it / 235
 - 11.10 A GIS map of pest-field and sewer analysis / 236
- 11.11A Map of cholera mortality in Broad Street's central service areas / 238
- 11.11B Map of relation of old plague burial site and sewer lines, 1850s / 238
 - 12.1 Haviland's geographical distribution of cancer / 247
 - 12.2 Haviland's geographical distribution of diseases / 248
- 12.3A-B Power's map of cancer in a British Village / 249–250
 - 12.4 Arnaudet's map of cancer in the French village of Corneilles / 251
 - 12.5 Green's map of cancer in the region of Leyburn / 253
 - 12.6 Green's map of cancer in a neighborhood / 254
 - 12.7 Green's map of a proposed correlation between cancer and air quality / 255
 - 12.8 Cancer intensity dot map / 257
 - 12.9 Stock's cancer tables / 259
- 12.10A Stock's map of all cancers reported in British registration districts / 260
- 12.10B Stock's map of lung cancer in England, 1920–1930 / 262
 - 12.11 Howe's map of tracheal, lung, bronchial cancer / 264
 - 12.12 U.S. oral and esophageal cancer in women, 1950–1969 / 266
 - 12.13 Sunlight and cancer, 1980–2006 / 269
 - 12.14 Cancer and Vitamin D / 270
- 13.1 Cholera tramples all, from *McLean's* magazine, 1832 / 278
