About the Editor xvii

## 1. Design of Materials and Product Specifications

DIVYA PANDIT, PRAN KISHORE DEB  
AND RENU CHADHA

- 1.1 Introduction 2
- 1.2 Objectives and Scope of Design of Materials and Product Specifications 2
- 1.3 Pharmaceutical Product Specification 3
- 1.4 Designing of Specification 5
- 1.5 Handling of Out-of-Specification 11
- 1.6 Finished Pharmaceutical Product 12
- 1.7 Importance of Specification on Pharmaceutical Quality System 15
- 1.8 Conclusion 15
- Acknowledgment 16
- Abbreviations 16
- References 16
- Further Reading 17

## 2. Engineered Mesenchymal Stem Cells as Nanocarriers for Cancer Therapy and Diagnosis

SUNITA CHAWLA, MUKTIKA TEKADE, RAHUL MAHESHWARI, YASHU CHOURASIYA,  
GILLIAN A. HUTCHEON AND RAKESH K. TEKADE

- 2.1 Introduction 20
- 2.2 Engineering Mesenchymal Stem Cells as a Novel Formulation Strategy in Cancer Treatment 27
- 2.3 What Future Holds for Multifunctional Stem Cell Platform? 46
- 2.4 Conclusion and Future Prospects 48

Acknowledgment 49

Abbreviations 49

References 51

## 3. Guiding Factors and Surface Modification Strategies for Biomaterials in Pharmaceutical Product Development

NEHA MAHESHWARI, UMESH KUMAR ATNERIYA,  
MUKTIKA TEKADE, MUKESH CHANDRA SHARMA,  
ABDELBARY ELHISSI AND RAKESH K. TEKADE

- 3.1 Introduction to Biomaterials: Concept and Understanding 58
- 3.2 Surface Modification of Biomaterials: Role in Product Development 59
- 3.3 Strategies Employed in the Surface Modification of Biomaterials 65
- 3.4 Future Remarks and Conclusion 81
- Acknowledgment 82
- Abbreviations 82
- References 82
- Further Reading 87

## 4. Biomaterials for Sustained and Controlled Delivery of Small Drug Molecules

DISHA MEHTANI, ANKIT SETH, PIYOOSH SHARMA,  
NEHA MAHESHWARI, DEVESH KAPOOR,  
SUSHANT K. SHRIVASTAVA AND RAKESH K. TEKADE

- 4.1 Introduction 90
- 4.2 Biomaterial Science and Biomaterials 91
- 4.3 Biomaterial Applications for Sustained and Controlled Release for Various Drug Delivery Systems 96
- 4.4 Advancements in Biomaterial Applications 107
- 4.5 Challenges in Using Biomaterials for Drug Delivery 126

- 4.6 Regulatory and Patent Aspect of Biomaterials Employed for Sustained and Controlled Delivery of Small Drug Molecule 134
- 4.7 Future Prospects and Conclusion 135
- Acknowledgments 136
- References 136
- Further Reading 152
- 5. Biotechnology-Based Pharmaceutical Products**
- PRAN KISHORE DEB, OMAR HUSHAM AHMED AL-ATTRAQCHI, JOHNSON STANSLAS, AMAL AL-ABOUDI, NOOR AL-ATTRAQCHI AND RAKESH K. TEKADE
- 5.1 Introduction 154
- 5.2 Production Process for Biotechnology-Based Products 155
- 5.3 Overview of Pharmacokinetics of Pharmaceutical Biotechnology-Based Products 164
- 5.4 Problems Associated With Biotechnology-Based Pharmaceutical Products 168
- 5.5 Biotechnology-Based Products: Processing, Production, and Application Perspectives 172
- 5.6 A Summary of Commercially Available Leading Biotechnology-Based Products 179
- 5.7 Nanobiotechnology 180
- 5.8 Gene Therapy 181
- 5.9 Pharmacogenomics 182
- 5.10 Stem Cell Therapy 182
- 5.11 Conclusion 183
- Abbreviations 184
- References 184
- Further Reading 189
- 6. Approaches to the Development of Implantable Therapeutic Systems**
- ANKITA MANE, NEHA MAHESHWARI, PIYUSH GHODE, MUKESH CHANDRA SHARMA AND RAKESH K. TEKADE
- 6.1 Introduction 192
- 6.2 Biodegradable and Nonbiodegradable Implant Systems 194
- 6.3 Mechanism of Drug Release From an Implantable Drug Delivery System 198
- 6.4 Implantable Pump System 201
- 6.5 Atypical Implantable Drug Delivery Systems 204
- 6.6 Modeling of an Implantable Drug Delivery System 205
- 6.7 Approaches for Development of Implantable Therapeutic Systems 210
- 6.8 Manufacturing and Sterilization Protocols 214
- 6.9 Benefits of Controlled Drug Administration via Implantation 217
- 6.10 Commercially Available Advanced Implantable Devices 218
- 6.11 Future Scope and Conclusion 220
- Acknowledgment 220
- References 220
- 7. Nanotechnology in Tissue Engineering**
- NEHA MAHESHWARI, MUKTIKA TEKADE, YASHU CHOURASIYA, MUKESH CHANDRA SHARMA, PRAN KISHORE DEB AND RAKESH K. TEKADE
- 7.1 Tissue Engineering: An Overview 226
- 7.2 Nanotechnology in Tissue Engineering 227
- 7.3 Strategies Related to the Formation of Scaffolds 231
- 7.4 Natural Materials—Based Tissue Engineering Nanoscaffold 232
- 7.5 Synthetic Materials—Based Tissue Engineering Nanoscaffolds 238
- 7.6 Applications 243
- 7.7 Recent Patents Overview 252
- 7.8 Clinical Trial Status 254
- 7.9 Conclusion 257
- Acknowledgments 257
- Abbreviations 257
- References 257
- Further Reading 261
- 8. Novel Therapeutic Approaches for the Treatment of Leishmaniasis**
- VANDANA SONI, SILKI CHANDEL, VIKAS PANDEY, SAKET ASATI, PRIYANKA JAIN, AVIRAL JAIN AND RAKESH K. TEKADE
- 8.1 Introduction 264
- 8.2 Diagnosis 268
- 8.3 Currently Used Drugs for the Treatment of Leishmaniasis 270
- 8.4 Combined Therapy 271
- 8.5 Other Drugs Used for Leishmaniasis 273

- 8.6 Macrophage-Targeted Drug Delivery Using Nanocarriers 275
- 8.7 Prophylactic Vaccines for Leishmaniasis 290
- 8.8 Conclusion 292
- Acknowledgments 292
- Abbreviations 292
- References 293
- Further Reading 300
- 9. Up-to-Date Implications of Nanomaterials in Dental Science**
- MUKTIKA TEKADE, NEHA MAHESHWARI,  
HIRA CHOUDHURY, BAPI GORAIN, PRAN KISHORE DEB,  
RAKESH K. TEKADE AND MUKESH CHANDRA SHARMA
- 9.1 Introduction: Understanding Dentistry and Underlying Problems in Dental Therapy 302
- 9.2 Medical Approaches to Resolve Dental Issues: Emergence of Nanotechnology in Dentistry 302
- 9.3 Various Nanomaterials Used in Dentistry 303
- 9.4 Conclusion and Future Prospects 329
- Abbreviations 329
- References 330
- 10. Current Research Perspectives of Orthopedic Implant Materials**
- SHANTANU BANDOPADHYAY, NABAMITA  
BANDYOPADHYAY, SARFARAZ AHMED, VIVEK YADAV  
AND RAKESH K. TEKADE
- 10.1 Introduction 338
- 10.2 History of Implant Materials 340
- 10.3 Development of Implant Materials Through Various Generations 341
- 10.4 Vital Properties for the Selection of Implant Material 348
- 10.5 Implant Materials Used in Orthopedic 349
- 10.6 Orthopedic Implant Manufacturing: Design and Development 352
- 10.7 Manufacturing Requirements for the Implant Materials 354
- 10.8 Coating Technologies/Approaches for Orthopedic Implants 355
- 10.9 Tissue-Implant Responses 356
- 10.10 Modeling Fracture Process in Orthopedic Implants 358
- 10.11 Complications Associated With the Performance of the Implant Materials 358
- 10.12 Current Trends in the 21st Century 360
- 10.13 Regulatory Approvals and Requirements 363
- 10.14 Clinical Applications of Orthopedic Implants 365
- 10.15 Marketed Products: An Update 366
- 10.16 Conclusions 367
- Abbreviations 368
- References 368
- 11. Biomaterials and Nanoparticles for Hyperthermia Therapy**
- PRAN KISHORE DEB,  
HAIFA'A MAROUF ABDELLATIF ODETALLAH,  
BILAL AL-JAIDI, RAGHURAM RAO AKKINEPALLI,  
AMAL AL-ABOUDI AND RAKESH K. TEKADE
- 11.1 Introduction 376
- 11.2 Factors Affecting Hyperthermia Treatments 381
- 11.3 Classification of Hyperthermia 381
- 11.4 Techniques Used for the Generation of Hyperthermia 385
- 11.5 Biomaterials and Nanoparticle in Hyperthermia Therapy 387
- 11.6 Crosstalk on Various Application and Uses of Hyperthermia 400
- 11.7 Hyperthermia Combined Therapy 403
- 11.8 Conclusions and Future Perspectives 405
- Abbreviations 405
- References 406
- Further Reading 413
- 12. Hyaluronic Acid as an Emerging Technology Platform for Silencing RNA Delivery**
- KAUSHIK KUCHE, PRAMINA KUMARI PANDEY,  
ABHIMANYU PATHARKAR, RAHUL MAHESHWARI AND  
RAKESH K. TEKADE
- 12.1 Hyaluronic Acid: Emerging Technology Platform 416
- 12.2 Introduction to RNA Interference 424
- 12.3 Hyaluronic Acid in Delivering Silencing RNA: Enhancing Target Specificity in Tumors 435
- 12.4 Conclusion and Future Outlook 447
- Acknowledgments 449
- Abbreviations 449
- References 450
- Further Reading 458

### 13. Thiolated-Chitosan: A Novel Mucoadhesive Polymer for Better-Targeted Drug Delivery

MUKTIKA TEKADE, NEHA MAHESHWARI,  
SUSANNE R. YOUNGREN-ORTIZ, VIKAS PANDEY,  
YASHU CHOURASIYA, VANDANA SONI,  
PRAN KISHORE DEB AND MUKESH CHANDRA SHARMA

- 13.1 Introduction 460
- 13.2 Polymers Used in Drug Delivery System 461
- 13.3 Mucoadhesive Polymers: Emerging Class of Novel Polymers 462
- 13.4 The Concept, Factors Affecting, and Theories of Mucoadhesion 464
- 13.5 Chitosan as a Mucoadhesive Polymer 468
- 13.6 Mucoadhesive Thiolated Chitosan: Next Generation Polymer for Drug Delivery 468
- 13.7 Mucoadhesive Thiolated Chitosan: Effective Delivery Through Nanocarriers 476
- 13.8 Applications 480
- 13.9 Conclusion 488
- Acknowledgment 488
- Abbreviations 488
- References 489

### 14. Recent Advances and Challenges in Microneedle-Mediated Transdermal Protein and Peptide Drug Delivery

RUBHAN CHANDRAN,  
EUSNI RAHAYU MOHD. TOHIT, JOHNSON STANSLAS  
AND TUAN MAZLEAA TUAN MAHMOOD

- 14.1 Introduction to Transdermal Delivery of Protein and Peptides 496
- 14.2 Mechanism of Skin-Based Microneedle Systems: Entry Into the Blood Circulation 498
- 14.3 Skin Properties and Design of Microneedles: A Correlation 500
- 14.4 Challenges in Microneedle-Mediated Protein Drug Delivery 505
- 14.5 Advances in Microneedle Technology in Protein Delivery 509
- 14.6 Current Status of Protein and Peptide Containing Microneedles in Clinical Trials and Marketed Microneedle Products 517

- 14.7 Conclusion 519
- Abbreviations 519
- Acknowledgments 520
- References 520
- Further Reading 525

### 15. Synthesis, Characterization, and Applications of Metal Nanoparticles

ABEER JABRA SHNOUDEH, ISLAM HAMAD,  
RUWAIDA W. ABDO, LANA QADUMII,  
ABDULMUTALLAB YOUSEF JABER, HIBA SALIM SURCHI  
AND SHAHD Z. ALKELANY

- 15.1 Introduction 528
- 15.2 General Methods in Metal Nanoparticles Synthesis 534
- 15.3 Synthesis of Gold Nanoparticles 542
- 15.4 Synthesis of Silver Nanoparticles 543
- 15.5 Synthesis of Iron Nanoparticles 544
- 15.6 Synthesis of Zinc Oxide Nanoparticles 545
- 15.7 Synthesis of Copper Nanoparticles 546
- 15.8 Synthesis of Aluminum Nanoparticles 547
- 15.9 Synthesis of Platinum Nanoparticles 548
- 15.10 Synthesis of Ruthenium Nanoparticles 548
- 15.11 Synthesis of Bimetallic Nanoparticles 549
- 15.12 Synthesis of Metalloid and Nonmetal Nanoparticles 550
- 15.13 Surface Properties of Metal Nanoparticles 551
- 15.14 Methods Used in Metal Nanoparticles Characterization 552
- 15.15 Applications of Metal Nanoparticles 566
- 15.16 Future Potential of Metallic Nanoparticles: Emerging Area of Biomedical Sciences 581
- Conclusion 582
- Acknowledgments 583
- Abbreviations 583
- References 585
- Further Reading 611

### 16. Functionalized Carbon Nanotubes for Protein, Peptide, and Gene Delivery

NEHA MAHESHWARI, MUKTIKA TEKADE,  
NAMRATA SONI, PIYUSH GHODE,  
MUKESH CHANDRA SHARMA, PRAN KISHORE DEB  
AND RAKESH K. TEKADE

- 16.1 Introduction to Nanotechnology 614

- 16.2 Carbon Nanotubes: Structure and Classification 615
- 16.3 Synthesis and Purification of Carbon Nanotubes 615
- 16.4 Functionalization of Carbon Nanotubes 617
- 16.5 Functionalization of Carbon Nanotube With Protein, Peptide, DNA, and SiRNA 619
- 16.6 Role of Peptides in Cancer Management 621
- 16.7 Carbon Nanotube–Mediated Peptide and Vaccine Delivery 623
- 16.8 Carbon Nanotube–Mediated Gene Delivery 626
- 16.9 Cellular Uptake and Cell Penetration Mechanism of Carbon Nanotubes 629
- 16.10 Toxicity Consideration of Carbon Nanotubes 630
- 16.11 Future Scope and Conclusion 632
- Acknowledgments 633
- References 633
17. Surface Modifications of Biomaterials and Their Implication on Biocompatibility
- NIDHI RAVAL, DNYANESHWAR KALYANE,  
RAHUL MAHESHWARI AND RAKESH K. TEKADE
- 17.1 Introduction to Biomaterials 640
- 17.2 Compatibility of the Biomaterial With Biological Surfaces: Challenges and Opportunity 640
- 17.3 Approaches for Surface Modification and Influences on Biocompatibility 646
- 17.4 Immobilization of Biomolecule on a Surface of Biomaterials 658
- 17.5 Techniques to Assess the Biocompatibility of Polymers 660
- 17.6 Effect of Surface Modification of Biomaterials for Biocompatibility 665
- 17.7 Conclusion 668
- Acknowledgment 669
- References 669
- Index 675**
