

EIGHTH EDITION

# Human Learning

Jeanne Ellis Ormrod

*University of Northern Colorado (Emerita)*

# Brief Contents

## **PART ONE**

---

### INTRODUCTION TO HUMAN LEARNING

#### CHAPTER 1

Perspectives on Learning 1

#### CHAPTER 2

Learning and the Brain 15

## **PART TWO**

---

### BEHAVIORIST VIEWS OF LEARNING

#### CHAPTER 3

Behaviorist Principles and Theories 40

#### CHAPTER 4

Applications of Behaviorist Principles 82

## **PART THREE**

---

### SOCIAL COGNITIVE THEORY

#### CHAPTER 5

Social Cognitive Theory 122

## **PART FOUR**

---

### COGNITIVE VIEWS OF LEARNING

#### CHAPTER 6

Introduction to Cognitive Perspectives 156

#### CHAPTER 7

Long-Term Memory Storage and Retrieval Processes 196

#### CHAPTER 8

The Nature of Knowledge 241

## **PART FIVE**

---

### DEVELOPMENTAL AND CONTEXTUAL PERSPECTIVES

#### CHAPTER 9

Cognitive-Developmental Perspectives 284

#### CHAPTER 10

Sociocultural Theories 312

#### CHAPTER 11

Contemporary Contextual Frameworks 337

## **PART SIX**

---

### COMPLEX LEARNING AND COGNITION

#### CHAPTER 12

Metacognition, Self-Regulated Learning, and Study Strategies 377

#### CHAPTER 13

Transfer, Problem Solving, and Critical Thinking 417

#### CHAPTER 14

Learning and Technology 461

## **PART SEVEN**

---

### MOTIVATION

#### CHAPTER 15

Basic Concepts and Principles in Human Motivation 479

#### CHAPTER 16

Cognitive Factors in Motivation 513

# Contents

Preface v

## PART ONE

---

### INTRODUCTION TO HUMAN LEARNING

#### CHAPTER 1

<b>Perspectives on Learning</b>	1
The Importance of Learning	2
Defining Learning	4
Determining When Learning has Occurred	5
Types of Learning Research	5
Learning Principles and Theories	6
<i>How Theories of Learning Have Evolved over Time</i>	7
<i>Advantages of Theories</i>	9
<i>Potential Drawbacks of Theories</i>	11
<i>A Pragmatic Perspective Regarding Theories and Principles</i>	12
Applying Knowledge about Learning to Instructional Practices	12
Overview of the Book	13
SUMMARY	14

#### CHAPTER 2

<b>Learning and the Brain</b>	15
Basic Building Blocks of the Human Nervous System	17
<i>Neurons</i>	17
<i>Synapses</i>	18
<i>Glial Cells</i>	19
<i>Importance of the Myelin Sheaths</i>	19
Brain Structures and Functions	20
<i>Methods in Brain Research</i>	20
<i>Key Structures in the Brain</i>	21
<i>The Left and Right Hemispheres</i>	24
<i>Interconnectedness of Brain Structures</i>	25
Development of the Brain	26
<i>Prenatal Development</i>	26
<i>Development in Infancy and Early Childhood</i>	26
<i>Synaptogenesis</i>	27
<i>Differentiation</i>	27
<i>Synaptic Pruning</i>	27
<i>Myelination</i>	28

<i>Development in Middle Childhood, Adolescence, and Adulthood</i>	28
<i>Factors Influencing Brain Development</i>	29
<i>To What Extent Are There Critical or Sensitive Periods in Brain Development?</i>	30
<i>Experience-Expectant versus Experience-Dependent Plasticity</i>	31
<i>To What Extent Is the Brain "Prewired" to Know or Learn Things?</i>	33
The Neurological Bases of Learning	34
Implications of Brain Research for Educators	35
SUMMARY	38

## PART TWO

---

### BEHAVIORIST VIEWS OF LEARNING

#### CHAPTER 3

<b>Behaviorist Principles and Theories</b>	<b>40</b>
Basic Assumptions in Behaviorism	41
Classical Conditioning	43
<i>Classical Conditioning in Human Learning</i>	45
<i>Common Phenomena in Classical Conditioning</i>	47
<i>Importance of Contingency</i>	47
<i>Extinction</i>	48
<i>Spontaneous Recovery</i>	48
<i>Generalization</i>	49
<i>Stimulus Discrimination</i>	49
<i>Higher-Order Conditioning</i>	49
<i>Eliminating Unproductive Classically Conditioned Responses</i>	50
Operant Conditioning	52
<i>Important Conditions for Operant Conditioning to Occur</i>	55
<i>Contrasting Operant Conditioning with Classical Conditioning</i>	55
<i>Forms That Reinforcement Might Take</i>	56
<i>Primary versus Secondary Reinforcers</i>	57
<i>Positive Reinforcement</i>	57
<i>Negative Reinforcement</i>	60
<i>Common Phenomena in Operant Conditioning</i>	61
<i>Superstitious Behavior</i>	61
<i>Shaping</i>	62
<i>Chaining</i>	62
<i>Extinction</i>	63
<i>Effects of Reinforcement Schedules</i>	64
<i>Effects of Antecedent Stimuli and Responses in Operant Conditioning</i>	69
<i>Cueing</i>	69
<i>Setting Events</i>	70
<i>Generalization</i>	70
<i>Stimulus Discrimination</i>	70
<i>Behavioral Momentum</i>	71
<i>Avoidance Learning</i>	71
Punishment	73
<i>Potentially Effective Forms of Punishment</i>	74
<i>Ineffective Forms of Punishment</i>	77

Cognition and Motivation in Behaviorist Theories	79
SUMMARY	80
<b>CHAPTER 4</b>	
<b>Applications of Behaviorist Principles</b>	<b>82</b>
Applying Behaviorist Principles to Classroom Management	83
<i>Creating a Productive Classroom Climate</i>	83
<i>Concerns About Using Reinforcement and Punishment in Classroom Settings</i>	84
<i>Myths and Misconceptions About Reinforcement and Punishment</i>	84
<i>Genuine Concerns</i>	86
<i>Using Reinforcement to Increase Productive Behaviors</i>	87
<i>Strategies for Decreasing Undesirable Behaviors</i>	92
<i>Extinguishing Responses</i>	92
<i>Presenting Noncontingent Reinforcement</i>	92
<i>Reinforcing Other Behaviors</i>	93
<i>Using Punishment</i>	93
Applied Behavior Analysis (ABA)	98
<i>Frequently Used ABA Strategies</i>	98
<i>Using ABA with Large Groups</i>	101
<i>Group Contingency</i>	102
<i>Token Economy</i>	104
<i>Adding a Cognitive Component to ABA</i>	104
Positive Behavioral Interventions and Supports (PBIS)	105
General Implications of Behaviorism for Classroom Instruction and Assessment	106
<i>Importance of Making Active Responses</i>	107
<i>Identifying Instructional Goals and Objectives</i>	107
<i>Behavioral Objectives</i>	108
<i>Current Perspectives on Instructional Goals and Objectives</i>	109
<i>Formulating Goals and Objectives at Varying Levels of Complexity</i>	110
<i>Promoting Mastery of Basic Knowledge and Skills</i>	112
<i>Programmed Instruction and Computer-Assisted Instruction</i>	114
<i>School Assessment Practices</i>	115
When Behaviorist Approaches are Most Useful	119
SUMMARY	120

## **PART THREE**

---

### **SOCIAL COGNITIVE THEORY**

#### **CHAPTER 5**

#### **Social Cognitive Theory**      **122**

General Principles of Social Cognitive Theory	124
<i>Environmental Factors in Social Cognitive Theory: Revisiting Reinforcement and Punishment</i>	125
<i>Problems with a Strict Behaviorist Analysis of Social Learning</i>	127
<i>Cognitive Factors in Social Cognitive Theory</i>	127
<i>Reciprocal Causation</i>	130
Modeling	131
<i>How Modeling Affects Behavior</i>	132

<i>Characteristics of Effective Models</i>	133
<i>Actions and Reactions That Can Be Learned Through Modeling</i>	134
<i>Academic Skills</i>	135
<i>Aggression</i>	135
<i>Interpersonal Behaviors</i>	136
<i>Conditions Necessary for Effective Modeling to Occur</i>	137
Self-Efficacy	140
<i>How Self-Efficacy Affects Behavior and Cognition</i>	140
<i>Factors in the Development of Self-Efficacy</i>	141
<i>Teacher Self-Efficacy</i>	143
Self-Regulation	144
<i>Elements of Self-Regulation</i>	145
<i>Promoting Self-Regulated Behavior</i>	146
<i>Self-Instructions</i>	146
<i>Self-Monitoring</i>	147
<i>Self-Reinforcement</i>	148
<i>Self-Imposed Stimulus Control</i>	149
<i>The Cognitive Side of Self-Regulation</i>	150
Educational Implications of Social Cognitive Theory	151
SUMMARY	154

## **PART FOUR**

### **COGNITIVE VIEWS OF LEARNING**

---

#### **CHAPTER 6**

<b>Introduction to Cognitive Perspectives</b>	<b>156</b>
Basic Assumptions in Cognitive Perspectives	157
Overview of Contemporary Cognitive Perspectives	162
<i>Information Processing Theory</i>	162
<i>Individual and Social Constructivism</i>	164
<i>Sociocultural Theory</i>	164
<i>Contextual Theories</i>	165
<i>Integrating Cognitively Oriented Perspectives</i>	166
The Basic Nature of Human Memory	167
<i>The Dual-Store Model: An Overly Simplistic and Yet Useful Model of</i>	
Human Memory	167
Sensory Register	169
<i>Moving Information to Working Memory: The Role of Attention</i>	171
Working Memory	175
<i>Moving Information to Long-Term Memory: Connecting New Information with Prior</i>	
Knowledge	180
Long-Term Memory	181
<i>Challenges to the Dual-Store Model</i>	183
<i>Are Working Memory and Long-Term Memory Really Different?</i>	184
<i>Is Conscious Thought Necessary for Long-Term Memory Storage?</i>	185
Alternative Views of Human Memory	186
Levels of Processing	186
Activation	189

<i>Remembering That The Map Is Not the Territory</i>	190
General Educational Implications of Cognitivist Approaches	190
SUMMARY	194
<b>CHAPTER 7</b>	
<b>Long-Term Memory Storage and Retrieval Processes</b>	<b>196</b>
Storage as a Constructive Process	197
Long-Term Memory Storage Processes	199
<i>Rote Learning</i>	199
<i>Meaningful Learning</i>	200
<i>Internal Organization</i>	201
<i>Elaboration</i>	202
<i>Imagery</i>	203
<i>How Procedural Knowledge Is Acquired</i>	205
Factors Affecting Long-Term Memory Storage	207
<i>Emotional Impact</i>	207
<i>Working Memory</i>	207
<i>Prior Knowledge</i>	208
<i>Prior Misconceptions</i>	210
<i>Expectations</i>	211
<i>Verbalization</i>	213
<i>Enactment</i>	213
<i>Repetition and Review</i>	214
<i>Development of Automaticity</i>	215
Long-Term Memory Retrieval Processes	216
<i>Importance of Context for Retrieval</i>	219
<i>Influence of Emotions on Retrieval</i>	220
<i>Construction in Retrieval</i>	221
<i>The Power of Suggestion: Effects of Subsequently Presented Information</i>	222
<i>Constructing Entirely New "Memories" During Retrieval</i>	222
<i>Remembering Prior Recollections</i>	223
Forgetting	225
<i>Decay</i>	225
<i>Interference and Inhibition</i>	225
<i>Repression and Suppression</i>	226
<i>Failure to Retrieve</i>	227
<i>Construction Error</i>	228
<i>Failure to Store or Consolidate</i>	228
<i>Why Forgetting Is Often a Good Thing</i>	228
Promoting Effective Long-Term Memory Storage And Retrieval Processes	229
SUMMARY	239
<b>CHAPTER 8</b>	
<b>The Nature of Knowledge</b>	<b>241</b>
The Various Kinds of Knowledge	242
<i>Declarative Knowledge</i>	242
<i>Procedural Knowledge</i>	243
<i>Conceptual Knowledge</i>	244
<i>Explicit and Implicit Knowledge</i>	245

Long-Term Memory as a Network	246
<i>Propositions and Their Interconnections</i>	247
<i>Parallel Distributed Processing</i>	250
Concepts	251
<i>Theories of Concept Learning</i>	252
<i>What Do People Learn About Concepts?</i>	252
<i>How Do People Learn Concepts?</i>	254
<i>Factors Facilitating Concept Learning</i>	256
Schemas and Scripts	259
Personal Theories	261
<i>Personal Theories Versus Reality</i>	263
<i>Fostering Theory Development</i>	266
Worldviews	267
The Challenge of Conceptual Change	269
<i>Promoting Conceptual Change</i>	272
Development of Expertise	278
Generalizations about The Nature of Knowledge	279
SUMMARY	282

## **PART FIVE**

### **DEVELOPMENTAL AND CONTEXTUAL PERSPECTIVES**

---

#### **CHAPTER 9**

<b>Cognitive-Developmental Perspectives</b>	<b>284</b>
Piaget's Theory of Cognitive Development	285
<i>Key Ideas in Piaget's Theory</i>	285
<i>Piaget's Stages of Cognitive Development</i>	289
<i>Sensorimotor Stage (Birth Until Age 2)</i>	289
<i>Preoperational Stage (Age 2 Until Age 6 or 7)</i>	291
<i>Concrete Operations Stage (Age 6 or 7 Until Age 11 or 12)</i>	293
<i>Formal Operations Stage (Age 11 or 12 Through Adulthood)</i>	295
Current Perspectives on Piaget's Theory	296
<i>Capabilities of Different Age-Groups</i>	297
<i>Effects of Experience and Prior Knowledge</i>	298
<i>Effects of Culture</i>	299
<i>Views on Piaget's Stages</i>	299
Neo-Piagetian Theories of Cognitive Development	300
<i>Case's Theory</i>	302
<i>An Example: A Possible Central Conceptual Structure for Number</i>	302
Implications of Piagetian and Neo-Piagetian Theories	305
SUMMARY	310

#### **CHAPTER 10**

<b>Sociocultural Theories</b>	<b>312</b>
Vygotsky's Theory of Cognitive Development	313
<i>Key Ideas in Vygotsky's Theory</i>	313
<i>Comparing Piaget's and Vygotsky's Theories</i>	318
<i>Common Themes</i>	319

<i>Qualitative changes in the nature of thought</i>	319
<i>Challenge</i>	319
<i>Readiness</i>	319
<i>Importance of social interaction</i>	319
Key Theoretical Differences	320
<i>To what extent is language essential for learning and cognitive development?</i>	320
<i>What kinds of experiences promote learning and development?</i>	320
<i>What kinds of social interactions are most valuable?</i>	321
<i>How influential is culture?</i>	321
Current Perspectives on Vygotsky's Theory	321
<i>Mediated Learning Experiences</i>	322
<i>Scaffolding</i>	322
<i>Acquisition of Teaching Skills</i>	324
<i>Dynamic Assessment</i>	325
Adding A Sociocultural Element to Information Processing Theory	326
<i>Intersubjectivity</i>	326
<i>Scaffolded Construction of Memories</i>	327
<i>Collaborative Use of Cognitive Strategies</i>	328
Educational Implications of Sociocultural Theories	329
<i>An Example: Reciprocal Teaching</i>	331
<i>An Example: Peer Tutoring</i>	333
SUMMARY	335
<b>CHAPTER 11</b>	
<b>Contemporary Contextual Frameworks</b>	<b>337</b>
Embodiment: Thinking And Learning as Whole-Body Phenomena	338
<i>Gestures as Integral Components of Thinking</i>	339
Emotional Contexts of Thinking and Learning	340
<i>How Emotions Influence and Are Subsequently Influenced by Cognitive Processes</i>	342
<i>An Example: Anxiety and Its Effects</i>	344
<i>Common Sources of Anxiety</i>	346
Immediate Physical and Social Environments as Contexts	348
<i>Situated and Distributed Learning and Cognition</i>	348
<i>Social Construction of Meanings and Memories</i>	350
<i>The Value of Authentic Activities</i>	351
Cultures as Contexts	352
<i>Distributing Knowledge Within a Culture</i>	353
<i>Communities of Practice in a Culture</i>	354
<i>Apprenticeships</i>	355
Societies as Contexts	357
How Various Layers of Context Interact: Bioecological Systems Theory	357
Educational Implications of Contextual Frameworks	360
<i>An Example: Class Discussions</i>	365
<i>An Example: Cooperative Learning</i>	368
<i>An Example: Communities of Learners</i>	372
SUMMARY	375

**PART SIX****COMPLEX LEARNING AND COGNITION****CHAPTER 12****Metacognition, Self-Regulated Learning, and Study Strategies 377**

Metacognitive Knowledge and Skills	379
Self-Regulated Learning	381
<i>Roots of Self-Regulated Learning</i>	383
Effective Learning and Study Strategies	384
<i>Taking Notes</i>	385
<i>Identifying Important Information</i>	386
<i>Creating Verbal and Graphic Organizational Structures</i>	387
<i>Summarizing</i>	387
<i>Monitoring Comprehension</i>	388
<i>Using Mnemonics</i>	390
<i>Verbal Mediation</i>	391
<i>Visual Imagery</i>	391
<i>Superimposed Meaningful Structure</i>	394
Development of Metacognitive Knowledge and Skills	396
Epistemic Beliefs	399
<i>Developmental and Cultural Differences in Epistemic Beliefs</i>	401
<i>Effects of Epistemic Beliefs</i>	403
The Intentional Learner	406
Why Students Don't Always Use Effective Strategies	406
Promoting Effective Learning and Study Strategies	409
SUMMARY	415

**CHAPTER 13****Transfer, Problem Solving, and Critical Thinking 417**

Transfer	418
<i>Types of Transfer</i>	418
<i>Positive Versus Negative Transfer</i>	420
<i>Vertical Versus Lateral Transfer</i>	420
<i>Near Versus Far Transfer</i>	421
<i>Specific Versus General Transfer</i>	421
<i>Theoretical Perspectives on Transfer</i>	422
<i>A Historical Perspective: Formal Discipline</i>	422
<i>Classic Behaviorist Views</i>	423
<i>An Information Processing Perspective: Importance of Retrieval</i>	424
<i>A Contextual Perspective: Situated Learning</i>	424
<i>A Contemporary View of General Transfer: Learning How to Learn</i>	425
<i>Going Beyond Transfer of Knowledge: Emotional Reactions, Motives, and Attitudes May Transfer as Well</i>	425
<i>Factors Affecting Transfer</i>	426
Problem Solving	429
<i>Early Theoretical Perspectives on Problem Solving</i>	430
<i>Early Behaviorist Views: Trial-and-Error Learning and Response Hierarchies</i>	430
<i>Early Cognitivist Views: Insight and Stages of Problem Solving</i>	431
<i>A Contemporary Information Processing Perspective: Cognitive Factors Affecting Problem-Solving Success</i>	432

Working Memory Capacity	433
Encoding of the Problem	433
Retrieval from Long-Term Memory	438
Knowledge Base	439
Metacognition	440
Problem-Solving Strategies	440
Algorithms	440
Heuristics	441
Meaningless Versus Meaningful Problem Solving	444
Facilitating Transfer and Problem Solving in Instructional Settings	445
Critical Thinking	452
Developmental, Cultural, and Individual Differences in Critical Thinking	455
Fostering Critical Thinking in the Classroom	456
SUMMARY	459

## CHAPTER 14

Learning and Technology	461
Potential Benefits of Using Technology to Promote Learning	462
Importance of Technological Literacy	465
General Guidelines for Using Technology in Instructional Settings	466
Individualizing Instruction with Technology	467
Digital Textbooks	467
Intelligent Tutoring Systems	468
Distance Education	469
Enhancing Learning Through Learner-Directed Internet Searches	470
Fostering Metacognitive Development and Self-Regulation Skills in Digital Environments	472
Using Simulations and Games to Foster Meaningful Learning and Higher-Order Cognitive Processes	472
Using Technology to Support Cooperative and Collaborative Learning Activities	474
SUMMARY	478

## PART SEVEN

---

### MOTIVATION

## CHAPTER 15

Basic Concepts and Principles in Human Motivation	479
General Effects of Motivation	481
Extrinsic Versus Intrinsic Motivation	481
The Interplay Between Motivation and Emotions	483
Fundamental Human Needs	483
Drive Reduction	483
Arousal	485
Maslow's Hierarchy of Needs	487
Competence and Self-Worth	490
Autonomy	493
Putting a Positive Spin on Controlling Circumstances	497
Relatedness and Belonging	497
Building on the Needs for Competence, Autonomy, and Relatedness: The Development of Internalized Motivation	499

Individual Differences in Motivation	501
<i>Need for Approval</i>	501
<i>Achievement Motivation</i>	502
<i>Sense of Identity</i>	503
<i>Dispositions</i>	503
Creating a Motivating Classroom Environment	506
SUMMARY	511
CHAPTER 16	
<b>Cognitive Factors in Motivation</b>	<b>513</b>
Interests	514
<i>Effects of Interest</i>	515
<i>Factors Promoting Interest</i>	515
Expectancies and Values	516
<i>Effects of Expectancies and Values</i>	517
<i>Factors Influencing Expectancies and Values</i>	517
Goals	519
<i>Achievement Goals</i>	520
<i>Effects of Achievement Goals</i>	521
<i>Origins of Achievement Goals</i>	524
<i>Work-Avoidance and Doing-Just-Enough Goals</i>	526
<i>Social Goals</i>	526
<i>Long-Term Life Goals</i>	527
<i>Coordinating Multiple Goals</i>	528
Attributions	529
<i>Effects of Attributions</i>	532
<i>Factors Influencing the Nature of Attributions</i>	533
<i>Age</i>	534
<i>Situational Cues</i>	534
<i>Patterns of Past Successes and Failures</i>	534
<i>Verbal and Nonverbal Messages from Others</i>	535
<i>Culture</i>	536
<i>Gender</i>	537
<i>Self-Protective Bias</i>	537
<i>Image Management</i>	537
<i>Explanatory Style: Mastery Orientation Versus Learned Helplessness</i>	538
<i>Roots of Learned Helplessness</i>	539
Motivation and Self-Regulation	541
Encouraging Motivating Cognitions	543
<i>Two Helpful Mnemonics for Remembering Effective Motivational Strategies: MUSIC and TARGETS</i>	552
SUMMARY	556
GLOSSARY	558
REFERENCES	575
NAME INDEX	652
SUBJECT INDEX	674
