Part 1: Overview of Managerial Economics

1

Chapter 1: Nature and Scope of Managerial Economics	3	Summary	45
How is Managerial Economics Useful?	3	Questions	46
Managerial Application 1.1 Business Ethics	5	Self-Test Problems and Solutions	47
Theory of the Firm	7	Problems	52
Profit Measurement	11	Case Study: Spreadsheet Analysis of the EOQ at the Neighborhood Pharmacy, Inc.	56
Managerial Application 1.2 The World is Turning to Capitalism and Democracy	13	Selected References	57
Why do Profits Vary Among Firms?	14	Appendix 2A: Maths Analysis for Managers	58
Managerial Application 1.3 Google on Social Responsibility	15	Properties of Real Numbers	58
Role of Business in Society	16	Equations	60
Managerial Application 1.4 The IKEA way	18	Concept of a Marginal	63
Structure of this Text	18	Rules for Differentiating a Function	65
Summary	20	Appendix 2B: Multivariate Optimization and the Lagrangian Technique	72
Questions	20	Partial Derivative Concept	72
Case Study: Is Coca-Cola the 'Perfect' Business?	21	Maximizing Multivariate Functions	73
Selected References	24	Constrained Optimization	74
Chapter 2: Economic Optimization	25	Problem	80
Economic Optimization Process	25	Chapter 3: Demand and Supply	81
Revenue Relations	27	Basis for Demand	81
Managerial Application 2.1 Ethical Aspects of Corporate Governance	28	Managerial Application 3.1 Energy Consumption in the World	83
Managerial Application 2.2 Do Firms Really Optimize?	33	Market Demand Function	83
Cost Relations	34	Demand Curve	85
Profit Relations	38	Basis for Supply	88
Incremental Concept in Economic Analysis	42	Market Supply Function	89
Managerial Application 2.3 Behavioural Economics	43	Supply Curve	91
		Market Equilibrium	94
		Summary	100

Questions	101	Case Study: Spreadsheet Analysis of Demand and Supply for Sunbest Orange Juice	108
Self-Test Problems and Solutions	101		
Problems	104	Selected References	110

Part 2: Demand Analysis and Estimation

111

Chapter 4: Demand Analysis	113	Managerial Application 5.2 Market Experiments on the Web	172
Consumer Decision-Making	113	Measures of Regression Model Significance	177
Managerial Application 4.1 Odd-Number Pricing Riddle	119	Judging Variable Significance	182
Indifference Curves	119	Summary	184
Budget Constraints	121	Questions	185
Individual Demand	125	Self-Test Problems and Solutions	185
Optimal Consumption	131	Problems	190
Managerial Application 4.2 Relationship Marketing	132	Case Study: Demand Estimation for Mrs. Smyth's Pies	194
Demand Sensitivity Analysis: Elasticity	135	Selected Reference	196
Price Elasticity of Demand	136	Chapter 6: Forecasting	197
Price Elasticity and Marginal Revenue	140	Forecasting Applications	197
Managerial Application 4.3 Hagglng in the Car Business	144	Managerial Application 6.1 Economic Forecasting: The Art and the Science	199
Price Elasticity and Optimal Pricing Policy	144	Qualitative Analysis	200
Cross-Price Elasticity of Demand	146	Trend Analysis and Projection	201
Income Elasticity of Demand	147	Managerial Application 6.2 Crypto Predictions	206
Managerial Application 4.4 What's in a Name?	149	Business Cycle	206
Summary	149	Managerial Application 6.3 The Stock Market and the Business Cycle	213
Questions	150	Exponential Smoothing	214
Self-Test Problems and Solutions	151	Econometric Forecasting	217
Problems	156	Managerial Application 6.4 How Good is Your Forecasting Ability?	218
Case Study: Optimal Level of Advertising	159	Judging Forecast Reliability	221
Selected References	160	Choosing the Best Forecast Technique	223
Chapter 5: Demand Estimation	161	Summary	225
Interview and Experimental Methods	161	Questions	226
Simple Demand Curve Estimation	162	Self-Test Problems and Solutions	227
Managerial Application 5.1 Sampling Technology for TV Advertising	163	Problems	231
Simple Market Demand Curve Estimation	165	Case Study: Forecasting Global Performance for a Mickey Mouse Organization	235
Identification Problem	168	Selected Reference	238
Regression Analysis	172		

Part 3: Production and Competitive Markets

239

Chapter 7: Production Analysis	241	Managerial Application 8.2 GAAP and IRFS	296
Factors of Production	241	Managerial Application 8.3 Cost Stickiness	300
The Short Run	242	Minimum Efficient Scale	301
The Long Run	242	Firm Size and Plant Size	302
Production Functions	242	Learning Curves	308
Input–Output Analysis	242	Managerial Application 8.4 Bigger Isn't Always Better	308
Total, Marginal, and Average Product	244	Economies of Scope	311
Law of Marginal Returns to a Factor	251	Cost–Volume–Profit Analysis	312
Law of Diminishing Returns to a Factor	251	Summary	317
Managerial Application 7.1 Efficiency Wages	252	Questions	318
Input Combination Choice	255	Self-Test Problems and Solutions	318
Marginal Revenue Product and Optimal Employment	259	Problems	321
Managerial Application 7.2 National Minimum Wages in the EU	260	Case Study: Estimating Hospitalization Costs for Regional Hospitals	324
Optimal Combination of Multiple Inputs	262	Selected References	327
Optimal Levels of Multiple Inputs	266	Chapter 9: Linear Programming	329
Returns to Scale	267	Basic Assumptions	329
Productivity Measurement	269	Managerial Application 9.1 Karmarkar's LP Breakthrough	330
Managerial Application 7.3 Labour Productivity Growth in Selected Countries 2009–2016	270	Managerial Application 9.2 LP: More than a Visual Approach	331
Summary	271	Production Planning for Multiple Products	331
Questions	272	Graphic Specification and Solution	333
Self-Test Problems and Solutions	273	Algebraic Specification and Solution	338
Problems	276	Managerial Application 9.3 LP on the PC!	342
Case Study: Worker Productivity Among Giant US Corporations	280	Dual in Linear Programming	342
Selected References	283	Dual Specification	343
Appendix 7A: A Constrained Optimization Approach to Developing the Optimal Input Combination Relationships	284	Solving the Dual Problem	345
Constrained Production Maximization	284	Summary	348
Constrained Cost Minimization	286	Questions	349
Problem	287	Self-Test Problems and Solutions	349
Chapter 8: Cost Analysis and Estimation	289	Problems	357
Economic and Accounting Costs	289	Case Study: An LP Pension Funding Model	362
Role of Time in Cost Analysis	291	Appendix 9A: Rules for Forming the Dual Linear Programming Problem	365
Managerial Application 8.1 GE's '20-70-10' Plan	292	Primal Problem	365
Short-Run Cost Curves	293	Dual Problem	366
Long-Run Cost Curves	296	Selected References	367

Chapter 10: Competitive Markets	369	Competitive Market Efficiency	403
Competitive Environment	369	Managerial Application 11.1 The Walmart Phenomenon	407
Factors that Shape the Competitive Environment	370	Market Failure	408
Managerial Application 10.1 International Trade Benefits the Rich More Than the Poor	371	Role for Government	410
Competitive Market Characteristics	373	Subsidy and Tax Policy	411
Managerial Application 10.2 Is the Stock Market Perfectly Competitive?	374	Managerial Application 11.2 Corn Growers Discover Oil!	411
Profit Maximization in Competitive Markets	375	Tax Incidence and Burden	414
Marginal Cost and Firm Supply	379	Managerial Application 11.3 Measuring Economic Profits	418
Competitive Market Supply Curve	382	Price Controls	418
Managerial Application 10.3 Dot.com	383	Business Profit Rates	421
Competitive Market Equilibrium	386	Market Structure and Profit Rates	424
Summary	388	Competitive Market Strategy	426
Questions	389	Long-Run Firm Performance	427
Self-Test Problems and Solutions	390	Summary	427
Problems	395	Questions	429
Case Study: Profitability Effects of Firm Size for DJIA Companies	399	Self-Test Problems and Solutions	430
Selected References	401	Problems	436
Chapter 11: Performance and Strategy in Competitive Markets	403	Case Study: The Most Profitable S&P 500 Companies	441
		Selected References	444

Part 4: Imperfect Competition

445

Chapter 12: Monopoly and Monopsony	447	Questions	471
Monopoly Market Characteristics	447	Self-Test Problems and Solutions	471
Managerial Application 12.1 Commission Fines Eight Producers of Capacitors €254 Million for Participating in Cartel	449	Problems	478
Profit Maximization Under Monopoly	450	Case Study: Effect of R&D on Tobin's q	483
Social Costs of Monopoly	453	Selected References	485
Social Benefits of Monopoly	457	Chapter 13: Monopolistic Competition and Oligopoly	487
Monopoly Regulation	459	Contrast Between Monopolistic Competition and Oligopoly	487
Managerial Application 12.2 Is Ticketmaster a Monopoly?	461	Monopolistic Competition	489
Monopsony	464	Managerial Application 13.1 Dell's Price War with Dell	490
Antitrust Policy	468	Monopolistic Competition Process	493
Managerial Application 12.3 Is This Why They Call it 'Hardball'?	468	Managerial Application 13.2 Intel: Running Fast to Stay in Place	493
Competitive Strategy in Monopoly Markets	469	Oligopoly	497
Summary	470	Cartels and Collusion	498

Oligopoly Output-Setting Models	499	Self-Test Problems and Solutions	554
Oligopoly Price-Setting Models	504	Problems	557
Census Measures of Market Concentration	511	Case Study: Time Warner, Inc. is Playing Games with Stockholders	561
Managerial Application 13.3 Horizontal Merger Guidelines	513	Selected References	563
Summary	514	Chapter 15: Pricing Practices	565
Questions	515	Pricing Rules and Analysis	566
Self-Test Problems and Solutions	516	Mark-Up Pricing and Profit Maximization	567
Problem	520	Managerial Application 15.1 Mark-Up Pricing Technology	568
Case Study: Market Structure Analysis at Columbia Drugstores, Inc.	525	Price Discrimination	571
Selected References	527	Price Discrimination Example	573
Chapter 14: Game Theory and Competitive Strategy	529	Managerial Application 15.2 Do Colleges Price Discriminate?	573
Game Theory Basics	529	Two-Part Pricing	577
Managerial Application 14.1 Asymmetric Information	531	Multiple-Product Pricing	580
Prisoner's Dilemma	532	Joint Products	582
Nash Equilibrium	535	Joint Product Pricing Example	584
Infinitely Repeated Games	537	Managerial Application 15.3 10 cents for a Gallon of Gas in Dayton, Ohio	585
Managerial Application 14.2 The Market for Lemons	538	Managerial Application 15.4 Why Some Price Wars Never End	589
Finitely Repeated Games	539	Summary	589
Game Theory and Auction Strategy	541	Questions and Answers	590
Managerial Application 14.3 Wrigley's Success Formula	542	Self-Test Problems and Solutions	591
Competitive Strategy	543	Problems	593
Pricing Strategies	545	Case Study: Pricing Practices in the Denver, Colorado, Newspaper Market	597
Managerial Application 14.4 Network Switching Costs	547	Selected References	599
Nonprice Competition	548	Appendix 15A: Transfer Pricing	600
Summary	552	Transfer Pricing Problem	600
Questions	553	Global Transfer Pricing Example	602
		Problem	606

Part 5: Long-Term Investment Decisions 609

Chapter 16: Risk Analysis	611	Managerial Application 16.2 Why are Lotteries Popular?	621
Concepts of Risk and Uncertainty	611	Adjusting the Valuation Model for Risk	623
Probability Concepts	613	Managerial Application 16.3 Stock Option Backdating Scandal	624
Managerial Application 16.1 Behavioural Finance	613	Decision Trees and Computer Simulation	628
Standard Normal Concept	619	Managerial Application 16.4 Internet Fraud	633
Utility Theory and Risk Analysis	621		

Summary	634	Managerial Application 18.3 Institutional Investors are Corporate Activists	703
Questions	635	Agreements and Alliances Among Firms	703
Self-Test Problems and Solutions	636	Legal and Ethical Environment	705
Problems	639	Managerial Application 18.4 Sarbanes–Oxley	706
Case Study: Stock-Price Beta Estimation for Google, Inc.	644	Summary	707
Selected References	647	Questions	709
		Self-Test Problems and Solutions	709
		Problems	711
Chapter 17: Capital Budgeting	649	Case Study: Do Boards of Directors Make Good Corporate Watchdogs?	714
Capital Budgeting Process	649	Selected References	717
Steps in Capital Budgeting	650		
Managerial Application 17.1 Market-Based Capital Budgeting	652	Chapter 19: Government in the Market Economy	719
Cash Flow Estimation Example	652	Externalities	719
Capital Budgeting Decision Rules	655	Managerial Application 19.1 ‘Tobacco’ Ethics	722
Project Selection	660	Solving Externalities	722
Managerial Application 17.2 Is the Sun Setting on Japan’s Vaunted MOF?	661	Public Goods	724
Cost of Capital	665	Managerial Application 19.2 Political Corruption	727
Managerial Application 17.3 Federal Government Support for R&D	666	Optimal Allocation of Social Resources	727
Managerial Application 17.4 Capital Allocation at Berkshire Hathaway, Inc.	670	Benefit–Cost Methodology	730
Optimal Capital Budget	671	Benefit–Cost Criteria	732
Summary	673	Additional Methods of Improving Public Management	736
Questions	674	Regulatory Reform in the New Millennium	738
Self-Test Problems and Solutions	675	Health Care Reform	740
Problems	678	Managerial Application 19.3 Price Controls for Pharmaceutical Drugs	741
Selected References	683	Summary	743
		Questions	744
		Self-Test Problems and Solutions	745
		Problems	751
		Selected References	755
Chapter 18: Organization Structure and Corporate Governance	685	Appendix A: Compounding and the Time Value of Money	757
Organization Structure	685	Appendix B: Interest Factor Tables	773
Transaction Cost Theory of the Firm	687	Appendix C: Statistical Tables	781
The Firm’s Agency Problem	688	Index	787
Managerial Application 18.1 Organization Design at GE	689		
Organization Design	692		
Decision Management and Control	694		
Corporate Governance	696		
Managerial Application 18.2 Company Information on the Internet	698		
Ownership Structure as a Corporate Governance Mechanism	699
