Chapter 1	Kinetics and Thermodynamics of Radical Polymerization F. Ehlers, J. Barth and P. Vana			
	1.1	Introd	luction	]
	1.2	Initiat	Initiation	
		1.2.1	Thermal Initiation	4
		1.2.2	Photoinitiation	4
		1.2.3	Self-initiation	7
		1.2.4	Redox-initiation	8
	1.3	Propa	gation	8
		1.3.1	Chain Length Dependence	ç
		1.3.2	Monomer Effects	9
		1.3.3	Solvent Effects	12
	1.4	Trans	fer	14
		1.4.1	Transfer to Monomer	15
		1.4.2	Transfer to Initiator	17
		1.4.3	Transfer to Solvents or Transfer Agents	17
		1.4.4	Transfer to Polymer	22
	1.5	Termi	ination	25
		1.5.1	Combination versus Disproportionation	25
		1.5.2	Termination Rate	28
		1.5.3	Monomer Conversion Dependence	29
		1.5.4	Chain-length Dependent Termination (CLD-T)	31
		1.5.5	<u> </u>	
			Conversion Dependence	35
		1.5.6	Temperature and Pressure Dependence	36
		1.5.7	Solvent Effects	37
