

# Relentless Evolution

---

JOHN N. THOMPSON

THE UNIVERSITY OF CHICAGO PRESS Chicago and London

# Contents

Preface, vii

**PART 1 THE PROCESS OF ADAPTATION**

- 1 Adaptive Evolution, 3
- 2 Natural Selection, 21

**PART 2 THE ECOLOGICAL GENETICS OF ADAPTATION**

- 3 Genes, 45
- 4 Genomes, 65
- 5 Coevolving Genomes, 82
- 6 Conflicting Genomes, 103

**PART 3 VARIABLE SELECTION AND ADAPTATION**

- 7 Adaptive Variation, 121
- 8 Recombination and Reproduction, 144
- 9 Divergence and Selection across Environments, 163
- 10 Local Adaptation, 185

**PART 4 THE DYNAMICS OF COADAPTATION**

- 11 Coevolutionary Dynamics, 211
- 12 The Geography of Traits and Outcomes, 233
- 13 Experimental Evolution, 259

**PART 5 DIVERSIFICATION**

- 14 Ecological Speciation, 287
- 15 Reticulate Diversification, 308
- 16 Species Interactions and Adaptive Radiations, 326
- 17 The Web of Life, 343

**PART 6 SYNTHESIS**

- 18 Our Changing Perceptions, 371
  - 19 Conclusions, 384
- Literature Cited, 389
- Index, 489
