Table of Contents

Preface	v
Effect of Temperature, Strain and Strain Rate on Efficiency of Power Dissipation during Hot Deformation of Fe-28Ni-17Co-11.5Al-2.5Ta-0.05B (at. %) Shape Memory Alloy Using Taguchi Method S.H. Adarsh and V. Sampath	1
Effect of Inconel 625 on Microstructure and Mechanical Properties of Gas Tungsten Arc Welded Inconel-713LC Superalloy Joints Y.C. Tzeng and C.T. Wu	10
Study on Deformation-Induced Pearlite Transformation in Vanadium Microalloyed Eutectoid Steel C. Zhen, X.P. Mao, S.Q. Bao and Z. Gang	17
Investigation on Microstructure Evolution and Strengthening Mechanism in Boron-Bearing Advanced High Strength Steel T. Jia, J. Li and L. Ma	25
A Scenario on Dry-WEDM and WEDM for Industrial Applications P.S. Gowthaman, S. Jeyakumar and B.A. Saravanan	34
Thermal Buckling of Functionally Graded Sandwich Beams A.A. Daikh, M. Guerroudj, M. El Adjrami and A. Megueni	43
Preparation and Characterization of Polypropylene and Unsaturated Polyester Resin Filled with Jute Fiber K.N. Keya, N.A. Kona, M.S. Hossain, M. Razzak, M.N. Islam and R.A. Khan	60
Studies on the Mechanical Characterization of Jute Fiber Reinforced Unsaturated Polyester Resin Based Composites: Effect of Weave Structure and Yarn Density K.N. Keya, N.A. Kona and R.A. Khan	69
Development of Methodology for Determining the Physical Properties of Natural and Innovative Materials R. Spinelli, P.H.D. Pasquali, A. Bertotti, D. Lerin, A.F. Pitol, F. Patiño-Cambeiro and O. Konrad	79
The Effect of Andreasen's Packing Distribution Modulus on the Physical and Mechanical Properties of a Low Cement Refractory Castable V.G. Malimpensa, J.A. Alves Júnior and J. Baptista Baldo	97
Keyword Index	105
