|   |            |
|---|------------|
| List of contributors  | vii        |
| Foreword: a biologist's view  | ix         |
| Foreword: a philosopher's view  | xi         |
| <b>1 Theories of development in biology—problems and perspectives</b>                     | <b>1</b>   |
| Alessandro Minelli and Thomas Pradeu  |            |
| <b>2 Regenerating theories in developmental biology</b>                                   | <b>15</b>  |
| Thomas Pradeu   |            |
| <b>3 The erotetic organization of developmental biology</b>                               | <b>33</b>  |
| Alan C. Love  |            |
| <b>4 On the concept of mechanism in development</b>                                       | <b>56</b>  |
| Johannes Jaeger and James Sharpe  |            |
| <b>5 The epistemological resilience of the concept of morphogenetic field</b>             | <b>79</b>  |
| Davide Vecchi and Isaac Hernández   |            |
| <b>6 Physico-genetics of morphogenesis: the hybrid nature of developmental mechanisms</b> | <b>95</b>  |
| Stuart A. Newman  |            |
| <b>7 The landscape metaphor in development</b>  | <b>114</b> |
| Giuseppe Fusco, Roberto Carrer, and Emanuele Serrelli                                     |            |
| <b>8 Formalizing theories of development: a fugue on the orderliness of change</b>        | <b>129</b> |
| Scott F. Gilbert and Jonathan Bard  |            |
| <b>9 General theories of evolution and inheritance, but not development?</b>              | <b>144</b> |
| Wallace Arthur  |            |
