<i>Bibliography</i>	244
<i>Index</i>	273

Figures

1.1	Maiuri's drawing of the north side of the fortifications between the Vesuvio and Ercolano gates detailing the various types of masonry.	12
1.2	Phases of the walls as described by Maiuri.	18
1.3	The rebuilt Porta Stabia with the lion spout on the top right.	21
2.1	Remains of the Pappamonte wall in the foreground with the Samnite enceinte in the background.	29
2.2	Remains of the Orthostat wall near the Porta Vesuvio. The inset shows its reconstruction as proposed by Krischen.	33
3.1	Travertine wall section near Tower XI.	46
3.2	Plan of the Porta Stabia. The key highlights the phases.	52
3.3	View toward the exterior of the city from the court of the Porta Stabia. Note the contrast between the masonry of the court walls and the outer bastions.	53
3.4	Plan of the Porta Vesuvio. The key highlights the phases.	55
3.5	Photo taken from Tower XI toward Tower X showing the development of the fortifications.	57
3.6	Plan of the Porta Nola. The key highlights the phases.	59
3.7	Plan of the Porta Nocera. The key highlights the phases.	61
3.8	Plan of the Porta Sarno. The key highlights the phases.	63
3.9	Plan of the Porta Ercolano. The key highlights the phases.	64
3.10	Stretch of wall next to the Porta Ercolano in tuff masonry.	65
3.11	Reconstruction of the Tower X as seen from the city side.	68
3.12	Section of wall in the vicolo dei Soprastanti.	69
3.13	Reconstruction of the towers as projected by Mazois.	73
3.14	Tower II viewed from below.	75
4.1	Facade of the House of the Scientist.	87
4.2	Entrance to the House of Pansa.	92
4.3	Looking down the via dell'Abbondanza from the Forum.	94
4.4	Surviving decorations of Tower X. The inset shows a close-up of the Doric frieze.	96
4.5	Surviving wall section in Telesia seen from the city side.	98
4.6	The inscription of Avianus Flaccus outside the Porta Stabia.	101

5.1	Section of wall supporting the amphitheater. Note the remains of the plaster coating.	116
5.2	Rebuilt section of the wall to the east of the Temple of Venus.	117
5.3	Towers X, XI, and XII, etching.	119
5.4	Exterior view of the Porta Nola, etching.	120
5.5	Plan of the Porta Marina. The key highlights the phases.	123
5.6	Overview of the Porta Marina.	124
5.7	The Sullan Temple of Venus.	125
5.8	The Porta Ercolano: interior view (left) and exterior view (right).	129
5.9	Tower VI as it stands next to steps leading up to the Amphitheater.	133
6.1	Surviving merlons on the exterior of the Palaestra wall.	149
6.2	The <i>aedicula</i> Tomb 23OS of the Vesonii.	153
6.3	Relief depicting a city gate in the Avellino Museum.	155
6.4	The Cenotaph of C. Calventius Quietus. The inset shows the lost merlon images.	156
6.5	Relief from the Basilica Aemilia.	158
6.6	Fresco with the fall of Icarus, House of the Sacerdos Amandus.	159
6.7	Second Style mosaic in the <i>fauces</i> of the House of M. Caesius Blandus.	162
6.8	Augustan floor mosaic in the <i>atrium</i> of the House of the Wild Boar.	164
6.9	The Second Style mosaic band acting as a threshold to exedra <i>u</i> in the House of Tryptolemus.	166
6.10	Relief of the 62 CE earthquake from the House of Caecilius Jucundus.	168
7.1	Surviving construction marks on the stretch of interior fortifications adjacent to the Porta Nocera.	178
7.2	Towers at Nocera.	181
7.3	Decorative embossing surviving in the lowest two courses adjacent to the western gate of Vulci.	184
7.4	The polygonal manners as illustrated by Lugli.	185
7.5	The main southern gate of Norba.	186
7.6	Worked and unworked masonry at a street corner in Cori.	187
7.7	The Porta Sanguinara at Ferentino and the adjacent curtain.	191
7.8	The development of the circuit at Tarraco, showing the original gate (left) and its later modification (right).	196
7.9	Reconstruction of a Tower at Paestum.	198
7.10	Porta Rosa, Velia.	201
8.1	The bust on the Porta Nola.	206
8.2	The niches and altar in the Porta Stabia.	208
8.3	Remains of the terracotta figurine excavated at the Porta Stabia.	209
8.4	Niche in the Porta Marina.	210
8.5	Map with some of the locations described in the chapter.	213
8.6	Figure from the Punta Campanella sanctuary (left) and from Pompeii (right).	214

8.7	Figurines recovered from the <i>Località Privati</i> (left) and from Paestum (right).	215
8.8	Aedicule in the Porta Marina at Paestum.	217
8.9	Surviving capital from the Doric-Corinthian Temple at Paestum.	218
8.10	The foundations of the so-called Tabularium in Rome.	223
8.11	Drawing of the Selinus relief in Thassos.	225
8.12	Porta all'Arco, Volterra.	226
8.13	Drawing of the relief in Tarragona.	227
8.14	Arch of Augustus, Rimini.	229
8.15	Porta Bojano in Sepino.	231
8.16	The Porta Leoni (left) and the Porta Borsari (right) in Verona.	232

Color plates

- Plate 1 The phases of the Pompeian fortifications marked A–E. The main circuits are (A) Pappamonte, (B) Orthostat, (C) Samnite. Letters D and E mark upgrades on the Samnite fortifications.
- Plate 2 Plan of Pompeii highlighting the fortifications as well as the *Altstadt* (in red). The colored sections mark the approximate locations where excavations have recovered the Pappamonte and Orthostat fortifications.
- Plate 3 Digital elevation model of the Sarno valley with Pompeii marked in red.
- Plate 4 Plan showing construction techniques present in the Pompeian fortifications. The *Altstadt* is marked in red.
- Plate 5 Section of the fortifications beneath the House of Fabius Rufus. The lines indicate the construction seams.
- Plate 6 Section of fortifications west of the Porta Nocera. The red lines mark the exposed foundations and the remaining course of tuff masonry.
- Plate 7 Section of masonry west of the Porta Nola showing the juxtaposition of the travertine and tuff masonry marked with a red line.
- Plate 8 Wall curtain between Towers XI and XII highlighting (by the red line) the differentiation between travertine and tuff.
- Plate 9 Reconstruction of the Porta Nola during the first Samnite phase.
- Plate 10 Reconstruction of the Porta Nola. The inset shows its current state.
- Plate 11 The Porta Nocera and its exposed foundations. The red lines indicate the concrete and the exposed tuff foundation blocks.
- Plate 12 The cross section of the Porta Vesuvio. Note the juxtaposition of the masonry and the *castellum* in the rear as well as Tower X (right).

- Plate 13 Reconstruction showing the upgraded wall to include the towers.
- Plate 14 Repairs in the ashlar masonry west of the Porta Nola.
- Plate 15 Reconstruction drawing of the Porta Nola in its final phase.
- Plate 16 Cross section of Tower X on the north side of the fortifications.
- Plate 17 Tower VI near the Amphitheater. The arrow points to the entrance from the left. The red line (on the left) distinguishes the travertine and tuff masonry.
- Plate 18 Drain of the Porta Nola. The arrow marks the outlet. The red line marks the travertine/tuff distinction; the inset shows the drain inlet.
- Plate 19 Reconstruction of the Porta Ercolano.
- Plate 20 Tower III. The red circle denotes the brick patchwork. The arrow indicates the quoin repairs and the line of exposed foundations.
- Plate 21 The ruins of Tower VII. The circle marks the *opus vittatum* tuff quoin. The red line marks the transition between travertine and tuff.
- Plate 22 Tower VIII with the walled-up postern and modified arrow slits highlighted. The inset shows the interior with the newly finished windows (left) and the walled-up postern in the rear.
- Plate 23 Frieze of the Trojan cycle in the House of the Lararium of Achilles.
- Plate 24 Apollo and Poseidon oversee construction of the walls of Troy, House of P. Vedius Siricus.
- Plate 25 Early Imperial *emblema* from the floor mosaic in the House of the Centenary.
- Plate 26 Pompeii, House I.3.23, Riot at the Amphitheater.
- Plate 27 The Polychrome Tumulus at Cerveteri.
- Plate 28 The curtain wall adjacent to the Porta Romana at Segni.
- Plate 29 The entry corridor into the town of Trebula Balliensis.
- Plate 30 The terra-cotta statue of Minerva from the Porta Marina: the reconstruction (left) and its largest fragment as recovered in 2010 (right).
- Plate 31 Fresco of a procession from the Shop of the Carpenters.
- Plate 32 The remains of the Porta Venere in Spello. The inset shows a reconstructive drawing.
