Contents

Preface, vii

PART 1: MECHANISMS OF RECOMBINATION

An Overview of the Molecular Mechanisms of Recombinational DNA Repair, 1

Stephen C. Kowalczykowski

Sources of DNA Double-Strand Breaks and Models of Recombinational DNA Repair, 37

Anuja Mehta and James E. Haber

End Resection at Double-Strand Breaks: Mechanism and Regulation, 55

Lorraine S. Symington

DNA-Pairing and Annealing Processes in Homologous Recombination and Homology-Directed Repair, 73

Scott W. Morrical

Mediators of Homologous DNA Pairing, 93

Alex Zelensky, Roland Kanaar, and Claire Wyman

Regulation of DNA Pairing in Homologous Recombination, 109

James M. Daley, William A. Gaines, YoungHo Kwon, and Patrick Sung

The Dissolution of Double Holliday Junctions, 125

Anna H. Bizard and Ian D. Hickson

Holliday Junction Resolvases, 139

Haley D.M. Wyatt and Stephen C. West

Structural Studies of DNA End Detection and Resection in Homologous Recombination, 169

Christian Bernd Schiller, Florian Ulrich Seifert, Christian Linke-Winnebeck, and Karl-Peter Hopfner

PART 2: REGULATION OF RECOMBINATION AND GENOMIC MAINTENANCE

Regulation of Recombination and Genomic Maintenance, 195

Wolf-Dietrich Heyer

Cell Biology of Mitotic Recombination, 217

Michael Lisby and Rodney Rothstein

Transcription and Recombination: When RNA Meets DNA, 239

Andrés Aguilera and Hélène Gaillard

Contents

Recombination and Replication, 255

Aisha H. Syeda, Michelle Hawkins, and Peter McGlynn

Mismatch Repair during Homologous and Homeologous Recombination, 269

Maria Spies and Richard Fishel

The Role of Double-Strand Break Repair Pathways at Functional and Dysfunctional Telomeres, 291

Ylli Doksani and Titia de Lange

Mechanisms of Gene Duplication and Amplification, 307

Andrew B. Reams and John R. Roth

Homologous Recombination and Human Health: The Roles of BRCA1, BRCA2, and Associated Proteins, 333

Rohit Prakash, Yu Zhang, Weiran Feng, and Maria Jasin

PART 3: MEIOTIC RECOMBINATION

Meiotic Recombination: The Essence of Heredity, 361

Neil Hunter

Recombination, Pairing, and Synapsis of Homologs during Meiosis, 397

Denise Zickler and Nancy Kleckner

Mechanism and Regulation of Meiotic Recombination Initiation, 423

Isabel Lam and Scott Keeney

Initiation of Meiotic Homologous Recombination: Flexibility, Impact of Histone Modifications, and Chromatin Remodeling, 447

Lóránt Székvölgyi, Kunihiro Ohta, and Alain Nicolas

DNA Strand Exchange and RecA Homologs in Meiosis, 463

M. Scott Brown and Douglas K. Bishop

The Meiotic Checkpoint Network: Step-by-Step through Meiotic Prophase, 493

Vijayalakshmi V. Subramanian and Andreas Hochwagen

Meiosis and Maternal Aging: Insights from Aneuploid Oocytes and Trisomy Births, 519

Mary Herbert, Dimitrios Kalleas, Daniel Cooney, Mahdi Lamb, and Lisa Lister

Index, 539
