

An Atlas of

# NORTHAMPTONSHIRE

The Medieval and Early-Modern Landscape

*Tracey Partida, David Hall and Glenn Foard*

Oxbow Books  
Oxford and Oakville

# CONTENTS

ACKNOWLEDGEMENTS .....	vii
LIST OF FIGURES .....	ix
LIST OF TABLES .....	x
1. Introduction .....	1
The county .....	1
Administrative units .....	1
County .....	1
Township .....	4
Methodology .....	5
Medieval data sets .....	7
Early-modern data sets .....	8
Township boundaries .....	9
Water .....	10
Roads .....	10
Historic maps .....	10
Estate maps .....	10
Enclosure maps .....	12
Tithe maps .....	14
2. Forests and Woodland .....	17
Land use .....	17
Forest and woodland .....	21
Forest administration .....	21
The physical structure of forests .....	24
Private woods .....	27
Forest management at the local level .....	28
Assarts .....	28
Piddington .....	29
Helmdon Stockings .....	29
Parks .....	29
3. Open Fields .....	32
Pasture and arable .....	32
Meadow .....	32
Pasture .....	33
Arable fields .....	35
Field system case studies .....	39
Helmdon .....	40
Denton .....	44
Crick .....	46
Ridge and furrow .....	47

4. Enclosure .....	51
Enclosed fields .....	51
Ancient enclosure .....	52
Parliamentary Period Enclosure .....	58
Roads .....	70
Enclosure of the forests .....	78
5. Rural Settlement .....	81
APPENDIX 1. Map sources for township boundaries .....	125
APPENDIX 2. Map sources for GIS data .....	129

# LIST OF FIGURES

1. Endpaper. Medieval land use c.1300, Northamptonshire townships, grey areas are non-township woodland and fen
2. Northamptonshire relief, rivers and major towns
3. Northamptonshire geology
4. The pre-modern county boundary
5. Northamptonshire Hundreds
6. The location of heaths
7. St Andrew's Priory 1632
8. Pipewell Plain c.1518
9. Ecton hides 1703
10. Surviving hide baulks at Ecton
11. Cold Higham draft enclosure map
12. Cold Higham enclosure map
13. Brockhall tithe map
14. Location of townships with selected land use types
15. Distribution of furlong names with *heath*, *moor* and *wold*
16. Distribution of furlong names with *breche*, *stubb* and *stocking*
17. Distribution of furlong names with *sart*, *dibbing* and *stibbing*
18. Northamptonshire Forests and woods
19. Salcey Forest; early coppices and assarts
20. The medieval parks of Northamptonshire
21. Labourers in the meadow 1632
22. Cow commons and furlongs 1632
23. Labourers in the arable fields 1632
24. Sheep grazing the pasture and fallow 1632
25. Air photo of the open fields at Kilsby
26. Location of townships having four or more adjacent furlongs with strips on the same alignment
27. Kislingbury and Rothersthorpe furlong pattern
28. Lutton furlongs and coincident cropmarks
29. Helmdon open fields in 1530 showing the demesne
30. Denton open fields in 1760 showing the *Yardley Hide* distribution
31. Crick open fields in 1776 showing the demesne and other great fields
32. Ridge and furrow surviving in 1940
33. Ridge and furrow survival in 1990
34. 17th-century curved ridges in Handley Park, Towcester
35. 19th-century straight ridges at King's Cliffe
36. Anciently enclosed townships
37. Townships owned by the Montagu family
38. Holdenby in 1580
39. Holdenby in 1587
40. Air photo of earthworks at Holdenby
41. Haselbech enclosure map 1598
42. Deserted settlements and ancient enclosure
43. Armston sheepwalk 1716
44. Papley 1632
45. All ancient enclosure
46. Southorpe in 1841
47. Denton freeboard 1760
48. Spatial patterns of parliamentary period enclosure
49. Stone pits in Northampton 1632
50. Enclosure allotments at Naseby
51. Kislingbury enclosure map 1779
52. Slipton, Twywell and Woodford in the 1880s
53. The northern half of Naseby township in 1817
54. Naseby roads on Explorer background
55. Naseby to Sibbertoft road
56. Naseby roads and furlongs
57. The 'Naseby Way' in Haselbech 1840
58. An enclosed roadside strip in the Banbury Lane
59. Nobottle 1715
60. Map of the medieval settlement pattern in Northamptonshire
61. Map of the extent of medieval settlements in Northamptonshire
62. Map of the pattern of settlement compared to national settlement zones
63. Map of the distribution of wealth in Northamptonshire in 1334
64. Map of settlement in relation to geology
65. Map of settlement and townships in relation to relief
66. Map of settlement and townships in relation to geology
67. Map of wold and woodland place names
68. Map of *ham*, *wic*, *clear* and *feld* place names
69. Map of subsidiary settlement names in relation to geology
70. Map of secular and ecclesiastical links in the Kings Sutton area
71. Map of the plan form of Higham Ferrers

## LIST OF TABLES

- |  |  |
|--|--|
| <p>1. County land use types and acreages</p> <p>2. Land use of selected townships</p> <p>3. Helmdon furlong names</p> <p>4. Denton furlong names</p> <p>5. The acreage of anciently enclosed townships relative to the date of enclosure</p> <p>6. The chronology of enclosure: the number of townships enclosed in each decade of the parliamentary period.</p> <p>7. The percentage of each township enclosed by decade in the parliamentary period.</p> <p>8. The percentage of each township enclosed relative to the number of landowners/allottees in the parliamentary period.</p> <p>9. The number of landowners/allottees in each</p> | <p>township relative to the decade of enclosure in the parliamentary period.</p> <p>10. Graph showing the percentage of early-middle Anglo-Saxon sites and of medieval churches as a proxy for late Saxon settlement cores on each of the main geological groupings, compared to the percentage of the county covered by that geology</p> <p>11. Graph of average percentage of nucleated settlement area and of point location for churches relative to geology</p> <p>12. The frequency of greens relative to the amount of open field pasture in a township.</p> <p>13. The geological context of greens compared to the remainder of village areas and of churches, as a proxy for late Saxon village cores.</p> |
