Formulae Tables and Concepts

A Concise Handbook of
Mathematics – Physics – Chemistry

translated from the German edition
under the editorship of Andrew S. Glass

orell füssli Verlag

Contents

MATHEMATICS

1	General	9
1.1	Mathematical logic and methods of proof	9
1.2	Sets	11
1.3	Relations	12
1.4	Functions	13
1.5	Numbers	14
2	Algebra	20
2.1	Binomial expansions and factorizations	20
2.2	Polynomial functions	21
2.3	Polynomial equations of higher degree in one variable	22
2.4	Algebraic Structures	25
2.5	Linear Algebra	27
2.6	Systems of linear equations	33
3	Discrete Mathematics	35
3.1	Elementary number theory	35
3.2	Sequences	38
3.3	Factorials and binomial coefficients	42
3.4	Combinatorics (counting problems)	44
3.5	Graph theory	46
4	Calculus	51
4.1	Sequences of real numbers	51
4.2	Real functions	54
4.3	Limits of functions, continuity	61
4.4	Differentiation	62
4.5	Integration	70
4.6	Series expansions	77
4.7	Special inequalities and approximations	81
4.8	Differential equations	81
5	Geometry	83
5.1	Plane geometry	83
5.2	Solid geometry	92
5.3	Trigonometry	97
5.4	Spherical trigonometry	100
5.5	Analytical geometry and vectors	101
5.6	Affine maps	111
5.7	Coordinate transformations	113

6	Probability and Statistics	115
6.1	Descriptive Statistics	115
6.2	Probability	117
6.3	Statistical inference	124
6.4	Important statistical tests and confidence intervals	126
7	Numerical Analysis	133
7.1	Polynomials	133
7.2	Interpolation	134
7.3	Systems of linear equations	135
7.4	Least squares approximations	136
7.5	Numerical solution of equations in one unknown	138
7.6	Numerical integration	139
7.7	Numerical differentiation	141
7.8	Numerical solution of differential equations	142
7.9	Discrete Fourier transform (DFT)	143
7.10	Random number generation	144
8	Mathematical Tables	146

PHYSICS

1	Classical Mechanics	155
1.1	Kinematics	155
1.2	Dynamics of a point mass	157
1.3	Rigid bodies	162
1.4	Continuous media	164
2	Waves, Optics and Acoustics	166
3	Thermodynamics	170
4	Electricity and Magnetism	173
4.1	Electrostatics	173
4.2	Direct current	175
4.3	Magnetism	177
4.4	Alternating current	179
5	Special Relativity	181
6	Atomic Physics	182
7	Nuclear Physics	183
8	Measurement Errors	184

9	Physical Data	185
9.1	Units	185
9.2	Mechanics	187
9.3	Thermodynamics	190
9.4	Optics	193
9.5	Electricity and Magnetism	194
9.6	Atomic and nuclear Physics	195
9.7	Geophysical data of Switzerland	204

ASTRONOMY

1	General	205
2	Earth and Its Satellites	209
3	Sun	211
4	Solar System	212
5	Stars	214
6	Galaxies	216
7	Cosmos	217

CHEMISTRY

1	Definitions and Formulae	218
2	Chemical Thermodynamics	222
3	Atomic Structure	226
4	Elements	228
5	Inorganic Chemistry	231
6	Organic Chemistry	233
7	Biochemistry	237
8	Instrumental Analysis	244
9	Acids and Bases	248
10	Redox Reactions	249

Index		251
