

**Chamber Works
of**

Hidayat I. Khan

Volume 1

Chamber Works - Volume 1

for various instruments

Songs and Arrangements

A wide range of compositions, for flute, hobo, piano, organ, Harp, for voices, duets and accompaniment!

Each composition is in itself a jewel, born out of inner impulses, of meetings, of requests from musicians, as an answer to deeply moving experiences. When we attune to this music, we will surely feel what formed the composer in his life, what made him mature; and in each piece we touch that perfume, which you will encounter in all works of Hidayat I. Khan, an extraordinary synthesis of fineness of Indian Ragas and deepest understanding of Western instruments and musical forms.

Each composition is of course also available on individual sheets, as well as individual parts of the string accompaniments. Please get in contact with the Petama Project.

Table of contents - Volume 1
