Introduction ix

Part 1 **Costs and benefits of monetary union**

1 **The costs of a common currency** 3
Introduction 3
1.1 Shifts in demand (Mundell) 3
1.2 Monetary independence and government budgets 8
The UK scenario 9
The Spanish scenario 9
1.3 Asymmetric shocks and debt dynamics 10
1.4 Booms and busts in a monetary union 12
1.5 Monetary union and budgetary union 17
A budgetary union as an insurance mechanism 17
A budgetary union as a protection mechanism 18
1.6 Private insurance schemes 19
1.7 Differences in labour market institutions 20
1.8 Differences in legal systems 22

2 **The theory of optimum currency areas: a critique** 24
Introduction 24
2.1 How relevant are the differences between countries? 24
Is a demand shock concentrated in one country a likely event? 24
Institutional differences in labour markets 28
Different legal systems and financial markets 30
Booms and busts and the nation-state 31
2.2 How effective are national monetary policies? 35
National monetary policies to correct for permanent asymmetric demand shocks 35
National monetary policies to stabilize business cycle shocks 38
Productivity and inflation in a monetary union: the Balassa-Samuelson effect 39
2.3 National monetary policies, time consistency, and credibility 41
The Barro-Gordon model: a geometric interpretation 42
The Barro-Gordon model in open economies 46
Credibility and the cost of a monetary union 46

2.4 Mundell once more 49
2.5 The cost of monetary union and the openness of countries 50

3 The benefits of a common currency 55
Introduction 55
3.1 Direct gains from the elimination of transaction costs 55
3.2 Indirect gains from the elimination of transaction costs: price transparency 56
3.3 Welfare gains from less uncertainty 59
3.4 Exchange rate uncertainty and economic growth 61
3.5 Monetary union and trade: the empirical evidence 68
3.6 Benefits of an international currency 68
3.7 Benefits of a monetary union and the openness of countries 70

4 Costs and benefits compared 72
Introduction 72
4.1 Costs and benefits compared 72
4.2 Monetary union, price and wage rigidities, and labour mobility 75
4.3 Asymmetric shocks and labour market flexibility 76
4.4 The degree of completeness of a monetary union 82
4.5 The trade-off between budgetary union and flexibility 83
4.6 Costs and benefits in the long run 87
4.7 Is Latin America an optimal currency area? 91
4.8 The next monetary union in Asia? 93
4.9 Monetary unions in Africa 96

Part 2 **Monetary union**

5 The fragility of incomplete monetary unions 103
Introduction 103
5.1 Fixed exchange rate regimes as incomplete monetary unions 103
5.2 A monetary union without a budgetary union 111
5.3 More bad news about bad equilibria: banking crises 115
5.4 More bad news about bad equilibria: automatic stabilizers 115

6 The transition to a monetary union 122
Introduction 122
6.1 The Maastricht Treaty 122
6.2 Why convergence requirements? 123
Inflation convergence 124
Budgetary convergence 126
Exchange rate convergence (no-devaluation requirement) 128
Interest rate convergence 129
6.3 How to organize relations between the 'ins' and the 'outs' 130

7 How to complete a monetary union **132**

Introduction 132

7.1 The role of the central bank: lender of last resort 133

Risk of inflation 135

Fiscal consequences 136

Moral hazard 137

7.2 Consolidating government budget and debts 138

A strategy of small steps 139

7.3 Coordination of budgetary and economic policies 143

7.4 An omitted 'deep' variable 146

8 Political economy of deconstructing the Eurozone **148**

Introduction 148

8.1 Case study: Greece 150

8.2 Case study: Italy unfit for the Eurozone? 154

8.3 Towards deconstructing the Eurozone? 158

8.4 The costs of deconstruction 159

8.5 Will the rest of the Eurozone be better off? 160

9 The European Central Bank **164**

Introduction 164

9.1 The design of the ECB: the Maastricht Treaty 164

9.2 Why has the German model prevailed? 165

9.3 The ECB: a 'conservative' central bank? 168

9.4 Independence and accountability 173

9.5 The ECB: institutional framework 177

The institutions of the Eurozone: the Eurosystem 177

Is the Eurosystem too decentralized? 178

Should the decision-making process in the Eurosystem be reformed? 180

9.6 The ECB as lender of last resort 181

9.7 Did the ECB violate its statutes when it announced its government bond-buying programme (OMT)? 183

9.8 The new financial regulatory and supervisory structure in the EU: towards a banking union 184

A common regulatory framework 184

A common supervisory framework 185

Towards a banking union 186

10 Monetary policy in the Eurozone **188**

Introduction 188

10.1 Central banking and asymmetries of shocks 188

10.2 The Monetary Policy Strategy of the ECB: a description 194

10.3 The Monetary Policy Strategy of the ECB: an evaluation 196

The selection of the target 196

Financial stability: an additional objective? 199
Is there a trade-off between price stability and financial stability? 199
How to define and monitor financial stability? 203
Excessive reliance on the money stock? 205
Inflation targeting: a model for the ECB? 207
10.4 The instruments of monetary policy in the Eurozone 208
Open market operations 208
Main refinancing operations: how do these work? 209
QE: How does it work? 210
Standing facilities 212
Minimum reserves 212
10.5 The Eurosystem as lender of last resort during the financial crisis 213

11 Fiscal policies in monetary unions 218
Introduction 218
11.1 Fiscal policies and the theory of optimum currency areas 218
11.2 Sustainability of government budget deficits 222
11.3 The argument for rules on government budget deficits 228
11.4 Fiscal discipline in monetary unions 231
11.5 Risks of default and bailout in a monetary union 236
11.6 The Stability and Growth Pact: an evaluation 236
11.7 A joint issue of common bonds 239
11.8 The quest for a safe asset 241

12 The euro and financial markets 245
Introduction 245
12.1 EMU and financial market integration in Europe 245
The integration of money markets 246
The integration of bond markets 246
The integration of equity markets 247
The integration of banking sectors 247
12.2 Why financial market integration is important in a monetary union 250
12.3 Conditions for the euro to become an international currency 253
Structural factors 254
The policy environment 256
